Swivel Joint

General

CCSC offers a full line of swivel joint which is a metal pipe adapter installed with roller bearings based on introduced technology imported from FMC swivel joints.

Swivel Joints are divided into long and short radius swivel joints. long radius swivel joint can minimize fluid resistance and has better performance in corrosion resistance than short radius due to its smooth bore. but short radius swivel joints are needed where the working space is limited.

Our high quality swivel joints are specially heat treated and inspected in order to control hardness to qualified according to NACE MR0175.

Available Spec.

Service : Oil, Gas, H2S Service Size : 1", 1 1/2", 2", 3", 4"

End Connection : Weco Hammer Union, Flange, Thread

Working Pressure : 2000 - 15,000PSI

Style : 10,20,30,50,60,80,100 long radius : 10,20,30,40,50,60,70,80 short radius

INSPECTION, QUALITY CERTIFICATE AND AFTER-SALE SERVICE

Inspection

We adopt factory inspection and on-site inspection. If the product passes on-site inspection, it will enter warranty period. The inspection conforms to the protocol signed by the two parties and product manufacturing standard. Any kind of third party inspection is acceptable.

Quality Certificate

- 1) All the equipment are manufactured according to ISO9001 and API standard
- 2) Warranty period is 18 months after receiving the goods or 12 months after operation. If there are quality problems within warranty period, the supplier is responsible for solving problems in time at any time.
- 3) If failure and potential safety hazard appear during operation because of designing defect, the supplier will improve the equipment for free.

CCSC PETROLEUM EQUIPMENT LTD CO Web: www.ccscpetro.com

4) We will provide complete high quality technical document and brochure of the whole equipment in English.

Documentations

- 1) Traceability Documents: (Including Raw Material Test Certificate, NDT Report, Pressure Test Report, etc.)
- 2) General Assembly Drawing
